We know that Air Force Infrastructure Water and Sewer Projects have created some frustrating issues, but the repairs and new infrastructure will make our systems safer and more reliable. Unfortunately, construction and repairs are disruptive, and it's difficult to prevent all problems. Here are some helpful tips to follow during the remainder of the Sewer and Water Project:

- Keep toilet lids down when not in use
- Keep sink and tub drains closed when not in use
- Keep kitchen sink stoppers plugged in when not in use

If you notice any backups in your home or standing water in your front yard, please continue to report all issues to CE at 803-895-9655 and Hunt at 803-499-7047 so that we can respond as quickly as possible.

February is Heart Disease Awareness Month

- Cardiovascular disease, listed as the underlying cause of death, accounts for nearly 801,000 deaths in the US. That's about 1 of every 3 deaths in the US.
- About 2,200 Americans die of cardiovascular disease each day, an average of 1 death every 40 seconds.
- Cardiovascular diseases claim more lives each year than all forms of cancer and Chronic Lower Respiratory Disease combined.
- About 92.1 million American adults are living with some form of cardiovascular disease or the after-effects of stroke. Direct and indirect costs of cardiovascular diseases and stroke are estimated to total more than \$316 billion; that includes both health expenditures and lost productivity.

Manager's Corner

We've reviewed all hand-written comments from the CEL Resident Satisfaction Survey and we want to let you know that we hear you!

One of the most common concerns were safety and security issues due to the new roundabout for school/gate access.

We have requested that Security Forces provide us with police blotters so that you can be better informed about what is going on in your neighborhood.

Valentine's Day Photo Booth & Prize Drawing

When: Wednesday, February
14th

Where: Shaw Family Housing
Management Office

Time: 10am-4pm

COME OUT AND TAKE
INDIVIDUAL OR GROUP
PHOTOS.

The 14th person to come in and
