Manager's Corner

We appreciate all of our residents who took the time to complete the survey. We truly value your opinions and ideas as we're always looking for ways to serve you even better. YOU are the reason we are here and WE want to be the reason you continue living on Shaw AFB. All comments will be reviewed and those of you that wished to be contacted will be.

Maintenance Corner

As cold weather is arriving, I would like to remind everyone that when turning on your heat for the first time since last winter please know you might smell a burning smell. This is normal as lint and dust accumulate on the heat strips over the summer months. There is nothing to be alarmed about, it is just burning off the dust. The smell should only last a little while. If the smell lingers for more than a few minutes, please feel free to call the Fire Department. Also, remember if you have any problems with your home please call Maintenance to schedule an appointment for us to come and fix the problem.

Charlie Cook
Maintenance Director
