

# Family Emergency Action Plan

- Discuss the type of hazards that could affect your family. Know your home's vulnerability to storm surge, flooding and wind.
- Locate a safe room or the safest areas in your home for each hurricane hazard. Be sure to locate a room in your home that is least susceptible to tree and wind damage. In certain circumstances the safest areas may not be your home but within your community.
- Determine escape routes from your home and places to meet. These should be measured in tens of miles rather than hundreds of miles.
- Have an out-of-state friend as a family contact, so all your family members have a single point of contact.
- Make a plan now for what to do with your pets if you need to evacuate.
- Post emergency telephone numbers by your phones and make sure your children know how and when to call 911.
- Check your insurance coverage - flood damage is not usually covered by homeowners insurance.
- Stock non-perishable emergency supplies and a Emergency Supply Kit.
- Use a weather radio. Remember to replace its battery every 6 months.
- Take First Aid, CPR and disaster preparedness classes.

# Emergency Supply Kit

- Water - at least 1 gallon daily per person for 3 to 7 days
- Food - at least enough for 3 to 7 days
  - non-perishable packaged or canned food / juices
  - foods for infants or the elderly
  - snack foods
